NEW YORK, Sept. 23 .- The Republicans of New York today geclared in favor of changing the party rules so that each state may determine its own method of choosing delegates to the national convention so that sates which give the big Re publican pluralities shall have proportionately larger power in selecting candidates for president. For this purpose the New York Repub-Heans call for a special national convention at an early date. The proposition and its subsidiary question developed the biggest fight of the Republican state convention held here today. This struggle was staged, however, before the committee on resolutions. There the issue was fought out with United States Sena-tor Elihu Root, Henry L. Stimson, former secretary of war and Nieholas Murray Butler, president of Columbia university, as chief supporters of the proposal and William Barnes. Jr., national committeeman, as its strongest opponent. The resolution finally was approved after the original measure had been amended to recommend the retention of the congressional district as the basis of representation

Later the resolution was adopted by the convention which thus made e demand for the change in rules the stand of the party in this state. Nominate Two Candidates.

The convention wound up its labors by the nomination of William E. Werner of Rochester, associate judge of the court of appeals, for chief judge and Frank H. She reaches out ner hand to control that great court upon which the protection of our Hberty depends. I cannot present the deep humiliation I have felt to see the shame of our statei in having the seal of Tammany impressed upon its

To Tammany he charged the New York police scandals and the "disgraceful squabble at Albany." There can be no possible outcome of the impeachment trial, acquittal or conviction, under which the Democratic party, controlled by Tammany Hall, is 'not convicted," Mr. Root concluded.

There was another noisy demonstration when District Attorney Charles S. Whitman of New York was called to the platform. The delegates sprang to their feet and ly devoted to the Sulzer case. "It brings these charges, but it is a matter of great concern whether the controlled.

If newspaper reports are correct, three Illinois cities have recently furnished striking camples of the too frequent outcome where individuals assume functions properly belonging to trust

In these cities, men of high standing in their communities, enjoying the confidence of their neighbors and friends and the public generally, accepted estate funds and trust funds from men and women, old and young. They have become financially embarrassed and their affairs are so tangled that the Courts have taken charge. Many who entrusted funds to these men find they will suffer loss.

Had those who trusted these men taken advantage of the many-sided services of a trust company their funds would have been safely and properly handled.

As trustee for funds and as Executor, Administrator, Guardian, etc., the modern "trust company" represents stability and permanence. Unlike the individual, it cannot abscord, speculate with trust funds, go on vacations or render false accounts. It is chartered and regularly examined by the State, deposits with the State securities to protect its trust funds and offers as further protection its capital and the double liability of its shareholders. Its trust accounts are handled with the same promptness, exactness and care given its banking accounts.

#### RADICAL CHANGE IN BRITISH NAVAL POLICY IS INDICATED

Admiralty Announces That Large Fleet Will Be Sent to the Mediterranean Early in November.

London, Sept. 23.—The announcement by the admiralty that a fleet comprising eight battleships, three battle cruisers, eight cruisers and eight light cruisers will be sent to the Mediterranean early in November, coupled with the despatch of four large armored ships, which will have their base in one ruture at Bermuda, indicates a radical mange in the Britsh naval policy, which on account of a friction with Germany has kept practically all the fighting units within home waters for several years past. The Mediterranean fleet after maneuvers will cruise as far as Alexandria. With the ves sels already in those waters the visiting fleet, under Vice Admiral Sir Stanley Colville, will make the most imposing naval demonstration ever attempted by Great Britain in the Mediterranean. The visit will pre-cede that of the American Atlantic fleet. The fourth cruiser squadron, leaving England Sept. 29th, will proceed direct to Bermuda. It is due there October 10th, after which the ships will scatter to visit various ports in the Carribean.
